

# Pocket Merchant™

Magnetic Credit Card / Drivers License Reader and Thermal Receipt Printer

Announcing a complete breakthrough in mobile printer design! A true Line Printer (the paper moves underneath a motionless head), rated not in characters, but MILES of paper in reliability (31 to be precise)! Powered by powerful, built-in Nickel - Metal Hydride rechargeable batteries, this printer literally throws receipts out at up to 2 inches per second!

All this in a printer that is shorter and narrower than a Palm III or VIIx, and only one inch thick! This printer will easily fit in a pocket or purse, and weighs just 7 oz. Included with Pocket Merchant is an installation module with Pocket Verifier Professional receipts! Order this complete package today, and give your customers professional, industry-standard credit receipts today!

Designed to work with both  
Palm™ OS and Pocket PC™!
